Meet the trainer

Dave Crowther

Dave has equipped executives from financial mutuals in over 80 countries with practical thinking tools for leading in complex situations. He acquired an understanding of strategy and behaviour while managing a European investment fund and 'accidentally' co-founding a software company ultimately acquired by IBM.

Dave refined the tools while designing a global cultural change initiative for a company within the Berkshire Hathaway family. He learned to be humble in the face of complexity when working on NHS strategic behavioural change interventions. Demonstrating that people are not rational, he enjoys cycling up hills.
